EMMONS
Dr. Allan Thain received 66 votes to George Schmidt's 10

votes in the Emmons School election to win the post of Richard Major who did not seek re-election. Emmons has three members on its board of directors.

Incumbent Lawrence Yopp collected 60 votes and Gary Vaughn 52. Beese received 45 votes. PM&L's Room Service Opens Friday Apr. 19

A Broadway producer has extended his credit so far that he faces eviction from the hotel. Unable to feed his cast, he must find a backer with \$50,000, or his play will never be produced.

What does he do when "room service" is stopped? When he feels as though he "swallowed a couple of holes"? When an irate hotel manager is determined to throw him out on the sidewalk? When a bill collector is hot on his trail? When his author refuses to cooperate? And his prospective backer is a hard man to convince?

To find out just what this fellow does to outwit his creditors and to get his play on the boards, theatre-going audiences can attend PM&L's spring show, "Room Service." Opening night is this coming Friday, April 19. Performances will also be given April 20, 26 and 27.

Josef Hunley plays Gordon Miller, the producer described above. Al Ramsay and Bob Thomley serve as his henchmen in the fine art of fast talk and masterful faking. Their efforts often ricochet off the dauntless, innocent head of one Leo Davis (Wayne Bentel), the author of "Godspeed."

The heavy of the piece, Gregory Wagner, the officious blusterer of

the White Way Hotel's management, is played by Gary Richter. His foil, Joseph Gribble, is portrayed by Bob Lindblad.

With a ratio of twelve actors to two actresses, "Room Service" is a predominantly male show. The hotel-room set is brightened, however, by the appearance of Fran Walpole and Marie Jasien. Fran plays Christine Marlowe, the leading actress in "Godspeed" and Miller's fiancée. Marie is cast as Hilda Manney, the romantic interest for Leo and the hotel manager's secretary.

As in any solidly made farce, this one by Murray and Boretz (which was produced and directed in its first Broadway run by George Abbott, whose name has become synonymous with fast-paced, laugh-filled "assaults on an audience") contains excellent parts: the waiter from the Moscow Art Theatre, Sasha Smirnoff (Ken Smeare); the backer with a weak heart and a tender posterior, Simon Jenkins (Hank Apostol); the befuddled agent from the We Never Sleep Collection Agency, Timothy Hogarth (Bob Willett); the hotel doctor who advertises in an elevator, Dr. Glass (Don Beveroth); the pushy, bank messenger (Steve Strang); and the deus ex machina himself, Senator Blake (Homer LaPlant). Cameo performances are also given by a lovely stuffed stags' head one stuffed owl, and two unseen house detectives.

The members of the PM&L have chosen a genuine farce of running actors, running gags, and running lunacy to please their audiences. The show's director, Don Beveroth says, "If this doesn't get 'em, nothing will. We aren't professionals, but 'Room Service' should keep a continuous stream of chuckles punctuated by a fair number of belly laughs flowing from our audiences."

Reservations can be arranged by phoning 395-3052. Curtain time is 8:30 p.m. for all four performances. Tickets can be purchased at the box office of the PM&L Theatre on Antioch's Main Street or from the members of Palette, Masque & Lyre.

Paintings by Shirley Grego will be shown at the PM&L Theatre. She has received many ribbons at county fairs and was recipient of a blue ribbon at the Town and Country Art Show in Graylake.

Court Pay For Police

Starting May 1 Antioch police will be paid \$2.25 per hour for attending court during off-duty hours.

The new pay policy was included in a new salary schedule adopted Tuesday by the Antioch Village Board.

Court appearance on days off or during off-duty hours has long been a source of irritation for police, not only in Antioch, but in other communities and the trustees' action in providing pay for this extra hour service is expected to result in better police efforts.

The police also shared in the general pay increases granted by the Village Board receiving annual increases of \$400 per year for all officers except the Police Chief who will receive an additional \$400 per year.

The Police Matron who also serves as radio dispatcher, was granted an increase of \$10 per week.

Top pay increase went to the Village Clerk who will receive an additional \$1,500 a year as the top full-time official in the community.

Other increases voted by the trustees were Superintendent of Public Works, \$400 per year; Superintendent of Water Department, \$500 per year; Superintendent of Street Department, \$600 per year; Collector, \$265.68 per year; and Building Commissioner, \$400 per year.

The new pay schedule provides for a 50 cents per hour increase for extra clerical help; 25 cents per hour increase for extra summer help, and 25 cents per hour for extra police workers.

Service Tax Law Amended By Trustees

A cut in revenue from the Village retail service tax was predicted by Village Attorney Edward C. Jacobs Tuesday after the Village Board of Trustees amended the ordinance creating the tax on services.

Originally the ordinance called for a three-fourths of one percent charge on certain services and the material or parts used in the repairs with the material charge being levied at a gross cost figure. Under the amendment the material charge will be based on the cost of the equipment to the serviceman.

According to Jacobs the change in the ordinance was made necessary by a recent Illinois Supreme Court ruling declaring certain sections of the Retail Occupation Tax or sales tax law unconstitutional.

The amendment should bring the village ordinance into conformity with the high court's position, but will cause some reduction in revenue for the village.

Remarks:—Just after I finished last week's report 4-9-68, I went out with our pup and found that four Purple Martin Scouts had dropped into our area. Last year the scouts got here on the 5th but cold weather drove them back south. It sure makes me think that spring is really here when I see them flying around. So far the weather has been warm enough during the day to bring out some bugs. They might not be getting fat, but they won't starve.

What is the difference between a "Tornado Warning" and a "Tornado Watch"?

A tornado watch is used to alert the public that tornadoes may develop over a certain area, but a tornado warning means that a tornado has actually been sighted in the area. The warning will indicate the location where the tornado was discovered, the area through which it is expected to move, and the time periods during which the tornado will move through the area warned. Keep your radio on during heavy wind storms, and call your local police station if you see anything that looks like a funnel-shaped cloud which extends towards the ground from the base of a thundercloud.

C'Mon Fellas, 'Play Ball'

Back before the days of Little League, Babe Ruth, Pony League and American Legion Baseball this would be the time of year when a bunch of kids would dig out a scarred old horsehide, a tape-repaired bat and some moth-eaten gloves and head for the nearest open field.

Now the adults who supervise, direct, coach, and in general try to take the fun out of a game for boys are busy registering, recruiting and scheduling tryouts.

As if this weren't enough interference the adults are now hassling among themselves regarding who is the official representative of what league.

It's unfortunate that two local groups who really do have the interests of the boys at heart and who are interested in developing a good, active baseball program for the kids of the area are engaged in a jurisdictional fight over control of Babe Ruth Baseball.

Without seeking to judge the merits of the case we hope the two groups can get together before the season starts and iron out their differences.

The kids themselves, who are really the only ones who should be considered, can't really care too much about the official designation of the league in which they play.

They want to hear "Play Ball."

New Rates Mixed Blessing

We always feel a glow when a major utility company, and particularly when it enjoys a monopoly, sees fit to reduce its fares or charges.

This is a good sign because it means the area which the company serves is prospering and therefore the utility is prospering and like a good neighbor passing along a share of its profits to the customers in the form of lower rates.

That's why we felt like cheering when the Illinois Bell Telephone Co. announced last week that it is now cheaper than ever to call New York between midnight and 5 a.m. During certain low rate times you can hardly afford not to call San Francisco or Miami Beach to see how the weather is.

To take advantage of all the rate savings possible you should really have a copy of the rate schedule next to your telephone so you will know when it is time to start making calls and take advantage of the new rates.

It is unfortunate that the lower rates cannot apply during normal working hours when a substantial number of business calls are made in the normal course of business, but then one shouldn't look a gift rate in the bill.

We do wish, though, that the telephone company hadn't found it necessary to raise the toll call from Antioch to Waukegan to 30 cents.

Courthouse Notebook

By Lou Durkin

There is one thing to be said for County Board of Supervisor politics. They are consistent. It is rare indeed that a prediction on the course of action to be followed by the Supervisors falls flat.

That is one reason we were able to predict with reasonable peace of mind that Warren Supervisor Robert Depke would be the new Chairman of the County Board.

The rather surprising addition of Supervisor August Cepon, Frank Peers, and Alex Brebner to the contest at the last minute was contrary to the script, but did nothing to change the outcome.

A few assistant supervisors who would normally have gone along with their Township Leader were caught unawares and had to make an apology for their votes, but the balloting proceeded in good order.

The vote for President of the Forest Preserve District Board of Commissioners also followed the script despite an impassioned plea by E. Kenneth Harlan, of Shields Township, for Roland Sandee, of Waukegan.

Harlan, the board's most articulate speaker and a real cheerleader

among the county legislators, heaped praise on Sandee for his role in securing the Lakewood Farms property near Wauconda for the Forest Preserve District.

However, Robert Whitehead, of Zion, was predictably elected in absentia and Supervisor Ernest Mintern, of Zion, was installed as President Pro Tempore pending the release of the new President from the hospital where he was undergoing a check-up.

Incidentally, generally overlooked in the elation over the obtaining of the Wauconda farm property has been the role played by Grayslake Realtor Dan McGaughy who was Receiver for the property while it was under government control and helped to open the door for negotiations.

The City of Waukegan passed a Fair Housing ordinance Monday night bringing to nearly 40 the number of Illinois communities which have passed such ordinances.

The passage of a Federal Open Housing law made passage much easier and should open the door for other communities to follow suit along with the County of

Albert W. Delattre
8th grade, Grass Lake School

There appears to be some confusion regarding Babe Ruth League Baseball in Antioch. Let's set the facts straight.

There's only ONE authorized and officially chartered Babe Ruth League.

An official charter was issued by the International Babe Ruth organization to the Antioch Babe Ruth League on March 11, 1968. Mr. Sam Gullota, State Director of Babe Ruth attended a league meeting on April 10, 1968. He confirmed the fact that only one charter will be issued in Antioch. The existing charter is the only one recognized by the State, National and International Babe Ruth Organizations.

The Antioch League Officers are: Vern Plotz, President; Bob Lekey, Vice-President; and Dick Klean, Secretary-Treasurer.

An attempt is being made to organize another league in competition with the existing Babe Ruth League. Mr. Dale Starkey, formerly associated with baseball in Antioch, is heading this effort. Unfortunately Mr. Starkey has chosen to use the name Babe Ruth in soliciting sponsors and players for his organization.

This illegal use of the Babe Ruth name is confusing players, parents, sponsors and the public in general.

An attempt like Mr. Starkey's can only hurt baseball in Antioch and cause bitterness and hard feelings among the people working for betterment of boys' baseball in our town.

But the innocent victims of this fiasco are the boys.

Registration for Little League and the one Babe Ruth Baseball League in Antioch will be on Saturday, April 20 from 9 a.m. to 4 p.m. at the Little League diamond, and Sunday, April 21 from 1-3 p.m. also at the Little League field.

Officers of Antioch Little League Babe Ruth League

Lake which could cover property in non-incorporated areas.

Not so likely is passage of a state-wide Open Housing bill because of the strong membership in the Illinois General Assembly of real estate men and realtors.

Real estate brokers and agents have been just short of hysterical in their opposition to any type of legislation which would eliminate race as a condition of sale or rental of real estate.

There will be tremendous pressure on the legislators when they go back in special session to pass some form of housing legislation, and not the least of the pressure will come from the gubernatorial candidates who will engage in some fancy tongue work trying to satisfy those who demand housing legislation and those who are unalterably opposed.

There has been considerable agitation about the possibility of the County of Lake hiring a Public Relations Consultant to develop a public information program for the county.

Chairman Depke has indicated he favors one and even Guy Grinnell has indicated he would be in favor and has proposed a budget of some \$30,000 for the office.

This is considerably more than we envisioned when we first suggested such a post to the county board.

The suggestion was not made without some self-interest at the time, but its only result was the creation of a Public Relations Committee on the board.

Such a position would not necessarily be a whitewash operation or a propaganda mill for the administration, although there is this danger.

Ideally, it would provide all news media with features on Lake County in general as well as the county government, provide study materials for county schools relating the county government to state and national government and to township and village or city government.

As an information center such an office could render invaluable service in attracting new industry to the county and presenting the county in a good light to people throughout the state.

It might even manage to acquaint Springfield with Lake County and secure some state benefits for this area, such as a new four year college.

Your Congressman Reports....

By Cong. Robert McClory

The Congress of the United States has been governed by unwritten rules of ethics for almost 200 years. During recent weeks these rules of conduct and of financial activity have been translated into codes of ethics governing Members of the U. S. House of Representatives and the Senate. In the Code adopted by the lower chamber (H. Res. 1099), the House of Representatives formalized the standards to which each of the 435 Members are expected to adhere.

In its major points the new Code a) forbids a Member or employee from receiving gifts of substantial value from parties with a direct interest in legislation; b) limits the amount of an honorarium a Member or employee might receive to the usual and customary amount; c) requires that no campaign funds be used for personal use; d) specifies that testimonial dinner funds are to be considered campaign funds; and e) stipulates that the employees' salaries must be commensurate with work performed.

In addition to these rules of conduct, Members of Congress will be required hereafter to declare investments of \$5,000 or more in organizations which do "substantial business" with the government. Also, they will be obliged to report professional, partnership or business interests from which an income of \$1,000 per year or more is received. The measure provides for the processing of complaints against members charged with improper conduct and also authorizes Members to receive advisory opinions where uncertainty may exist as to the propriety of conduct.

It was pointed out emphatically in House debate that Members of Congress are men and women of honor—with very few exceptions. The more popular view

that Representatives and Senators are guided by lower ethical standards than persons in private life is without a valid basis.

The censure case of Senator Thomas J. Dodd of Connecticut and the expulsion of former Congressman Adam Clayton Powell of New York are unique in recent congressional experience. While these incidents may have reflected on the entire House and Senate membership, the salutary effect of these disclosures is now made evident in the codes of official conduct adopted in both the House and Senate.

Commenting on the character of the U. S. House of Representatives membership, Congressman John Buchanan of Alabama, an ordained minister for more than 17 years, declared, quite candidly: "I have never been a part of a more honorable, a more ethical or a more responsible body than the U. S. House of Representatives. In the Members of this House there are reflected the faith, the character, the courage, and the patriotism of the American people. This remains the hope and the strength of a great republic."

When you're driving near a school or playground, please use an extra measure of caution. It's an adult's responsibility to watch out for children, especially the little ones who don't know the rules of traffic safety.

WTTW Auction Begins Tuesday

WTTW/Channel 11's second annual on-the-air auction, the biggest people-watching bargain-hunting program ever presented on local television, will begin at noon on Monday, April 22. The bid-by-phone colorcast will run for twelve hours each day, ending at midnight Saturday, April 27. All proceeds go to improve and expand Channel 11's programming.

Celebrity auctioneers, including Celeste Holm, Forrest Tucker, Phyllis Diller, Gale Sayers, and Kukla and Ollie, will display thousands of donated items before the cameras. Viewers who see an item they wish to bid on may do so by phoning 372-9300. If their bid is the highest, they will see their names announced on television and will receive a confirming phone call. They may then pick up and pay for the item (using a Midwest Bank Card if they wish) at the Channel 11 studios, 5400 N. St. Louis, Chicago.

Furniture, appliances, fashions, trips, sporting goods, art, jewelry, and automobiles are among the donations which Chicago-area merchants have sent to the Channel 11 warehouse thanks to the efforts of hundreds of volunteer "go-getters." Among the outstanding donations are five new cars and an antique London taxi; an all-expense-paid, 30-day African photo safari for two; motorcycles, tires, freezers, ponies, a gown from Phyllis Diller, Ed Sullivan's gold ring, television sets, guitars, and hundreds of other useful and fun items.

of the Illinois Public Health Association (IPHA) in Chicago April 17-19.

The impact of such factors as increased population and growing government concern for individual welfare on community health services and public health nursing will be considered by more than 500 persons, IPHA members and guests, attending the three-day meeting.

"Sessions of the meeting which will cover current issues in the public health field should provide valuable information to all workers in the field attending," according to Irene A. Fahey, IPHA president and chief of the division of public health education, Cook County Department of Public Health.

The closing session will pose the question, "Where is Public Health Heading in Illinois?" Speaker will be state Sen. Robert W. Mighler, R-Oswego.

IPHA's membership of 1,200 persons, said Miss Fahey, makes it the largest organization in Illinois concerned with the protection and improvement of public and personal health and the second largest state public health officers, nurses, environmental health specialists, public health educators, laboratory specialists and administrative and clerical personnel.

Church Bells To Ring At Noon Friday

The Illinois Sesquicentennial Commission recently has designated April 19-21, 1968 as Illinois Sesquicentennial Sabbath Week-end for statewide observance of our religious heritage.

Bells will ring simultaneously from churches and synagogues throughout Illinois on Friday, April 19 at noon to herald the beginning of the Sesquicentennial Sabbath Week-end.

Whether you are driving or walking, a railroad crossing can prove extremely dangerous. The motor club warns against hurrying across railroad tracks immediately after a train has passed. Remember, a second train may be coming from the other direction.

Advice For Older Drivers

In our society of youth worshipers, where everyone strives to think, drink and dress young, people have a tendency to confuse fact and fancy. This occurs in our thinking about drivers, too, says the Chicago Motor Club AAA.

Traffic violations of older drivers are revealing. They tell us, for instance, that while older drivers rarely are guilty of speeding, driving to the left of center or following too closely, they are guilty of failure to yield the right of way, making improper turns and occasionally disregarding signals.

It is true that reaction time slows down with age. If you are an older driver, accept this fact—and its implications, says the motor club. Keep a safe distance between yourself and the car ahead so that you don't depend on sudden braking.

Don't be too proud to avoid peak hours and heavy city traffic or night driving if you feel unsafe or insecure about it.

Growing old gracefully means many things, among them graciously acknowledging your limitations. Eyesight deteriorates after the age of 40 or so. Advise your optician of your intention to drive, have regular eye examinations and wear corrective lenses if needed while driving.

As you age, your field of vision tends to narrow. You may compensate for this by turning your head from side to side. Also, your recovery from glare is not as fast as with younger drivers. This can be overcome by using the right edge of the pavement as a guide in steering instead of looking at the center line and more

A's Have Open Meeting Friday At St. Peter's Church

Alcoholics Anonymous will hold an open meeting on Friday, April 26 at St. Peter's Church, Antioch.

This meeting is open to everyone. Speakers will be Bill B. and Friend from the Zion-Benton Group. Refreshments will be served.

Closed meetings are held every Friday night at 8:30 p.m. at St. Peter's.

Open meetings are held the last Friday of every month.

A man sometimes celebrates his birthday by taking the day off. A woman by taking a year off.

directly into the lights of an approaching car. Hearing also deteriorates in many cases, so if someone else notices a rattle in your car, heed it and have it investigated.

These physical limitations often offset by some valuable, built-in psychological factors which favor the older driver, according to the club.

Older people usually exhibit more painstaking attention to detail; are less aggressive; have less desire to show off; often are less distracted by other matters—more at peace with themselves and the world.

Their concentration is good—but over shorter periods. They are more easily fatigued, but less afraid to admit it.

Older drivers are prone to commit certain offenses, which are worth a word of warning.

Hogging the road is, perhaps the sin of which they stand most accused. We all have seen the older driver sitting out in the middle of the road, proceeding along sedately at 20 miles an hour.

THE ANTIOCH NEWS 3 THURSDAY, APRIL 18, 1968

Presumably he feels safer out there. The opposite is true. The safe, as well as the correct place to be, is on the right side of the road, especially if you are traveling at a moderate speed. A bump from the rear is one of the hazards to which the older driver is exposed if reactions are unduly slowed down.

Failure to use your rearview mirror before pulling into traffic, or to check carefully before merging or changing lanes, is another frequent offense. This, of course, applies to drivers of all ages.

The motor club offers this summary of a driving instructor's tips to the elderly driver:

"Carry out your moves systematically. Drive cautiously, keep to your lane and always look where you are going. And keep this firmly in mind: You have as much right to the road as anyone else—but no more."

CHRISTIAN SCIENCE CHURCHES

The Lesson-Sermon to be read this Sunday in all Christian Science churches is titled "Doctrine of Atonement." It includes this verse from John: "For God sent not his son into the world to condemn the world; but that the world through him might be saved."

Among passages to be read from the denominational textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy is the following: "Every pang of repentance and suffering, every effort for reform, every good thought and deed, will help us to understand Jesus' atonement for sin and aid its efficacy; but if the sinner continues to pray and repent, sin and and be sorry, he has little part in the atonement,—in the atonement with God,—for he lacks the practical repentance, which reforms the heart and enables man to do the will of wisdom."

Services at First Church of Christian Science, BEACON HILL, Rt. 173 & Harden, Antioch, begin at 11:00 A.M. The public is invited to attend.

120 Day Enlistment Program Wins Approval

The Army's recently announced 120 Day Delay Enlistment Program is rapidly gaining the approval of men who wish to delay their date of entry into active service, it was announced this week by Sgt. Ronald Brasket of the Army recruiting office at 620 1/2 Washington St., Waukegan.

The sergeant said the program allows men to enlist in the Army and spend up to 120 days at home before reporting for active service. During that time, they are placed on reserve status and receive the 120 days as credit toward their total military obligation.

He said the 120 days also counts toward the time needed for promotion to the next highest grade

and generally places the men ahead of those who may choose other options.

The sergeant noted that many men "sweating out the draft" are taking advantage of the 120 day program when they find they need more time to settle their affairs before entering service.

He said the 120-day man receives an added bonus, because most of them are qualified to choose the type of work or school training they wish to follow in the Army. These men are guaranteed in writing that they will get their choice of schooling or training before they go on active duty.

For further information call 662-5260 or visit the local Army recruiting station.

Reeders Visit Historic Sites

To unexpectedly meet a former teacher of Grass Lake School in Hannibal, Missouri, is quite a coincidence, but it happened to Billy Reeder, now a 6th grader at Grass Lake School.

Bill and his family, the Lee Reeders, of Indian Point, were visiting the Mark Twain Museum at Hannibal, where they met Mrs. Pride, Bill's former third grade teacher. Mrs. Pride was on a tour with a group from Carthage College.

Bill played "Huck Finn" and sister Deb played "Mrs. Thatcher" in the play "Tom Sawyer," presented at Grass Lake School two years ago.

The Reeders visited Dickson Mounds and watched anthropologists carefully uncover ancient Indian graves. They had some anxious moments when their dog Dottie got loose—what with all the Indian bones lying around—but she didn't do any bone gnawing, and was put back in the car.

The Reeders also went to Starved Rock and Festus, Mo., where they visited 92 year old Grandma Reeder.

Village Okays Variation In Zoning Code

A variation in the Antioch zoning ordinance to permit the operation of a light machine shop in a B-2 area was granted to William Keulman by the Village Board of Trustees Tuesday.

The board accepted the variation recommendation of the Antioch Zoning Board of Appeals which rejected a petition for a change in zoning for the old roller rink on Broadway from B-2 to M-1 Industrial, Limited.

The variation was limited to two years and was granted on a hardship basis since the petitioner had alleged that no economic commercial use could be made of the building without extensive alterations at a prohibitive cost.

The trustees approved a recommendation of the Zoning Board of Appeals dealing with overlying signs which set a minimum height of 10 feet from the sidewalk and three and a half feet inside the curb line.

The recommendation also included a change which eliminates the Plan Commission from responsibility in zoning matters.

The board accepted a letter from Frederick Walpole stating that he would not accept appointment to another term as a member of the Zoning Board of Appeals.

Mayor Toft commended Walpole for his service as chairman and directed the clerk to prepare an official letter of appreciation.

Which is the genuine Antioch Babe Ruth League?? The one headed by Dale Starkey, with Robert Gross, vice-pres.; Harold Romaine, secretary, and Bill Naumann, treasurer; or the Antioch League whose officers are Vern Plotz, president; Bob Letkey, vice-pres.; and Richard Klein, secretary-treasurer?

The latter group claims there is only one authorized and officially chartered Babe Ruth League. An official charter, they state, was issued by the International Babe Ruth organization to the Antioch Babe Ruth League on March 11, 1968. Sam Gullota, State Director of Babe Ruth League, confirmed the fact that only one charter will be issued in Antioch.

The existing charter is the only one recognized by the State, National and International Babe Ruth organizations. According to Richard Klein, the Antioch League has this charter.

Starkey has a not-for-profit corporation charter from the State of Illinois for the Antioch Babe Ruth League, but according to Gullota, he cannot obtain a Babe Ruth League charter.

Antioch Loses To Irving Crown 82-45

Irving Crown of Carpenterville beat Antioch very decisively last Saturday, 82-45. Showing great individual strength, Crown took 13 firsts, with only Bill Nader's first in the shot put and Paul Yuska's first in the 220 yard dash the only first place finishes for Antioch. This was Crown's third meet and the first for Antioch.

There were several fine times for the Antioch varsity boys even though some of the boys took second place. Chuck Denman's time of 11.01 in the 2 mile was good and in the next meet he should break the 11 minute barrier. Russ Barthel took two second places in the hurdle races and had a fine time of 22 second in the low hurdles.

Paul Yuska, with a time of 22.9 in the 220 yd. dash is only four-tenths of a second off qualifying time for the state meet. Paul's 100 yard dash time of 10.5 also is good for this early in the season.

The 880 yard relay team—composed of Don Koenig, Dave Camp, Fred Koch and Paul Yuska had a good time of 1:40.2 and should improve a great deal by state district time. Also, Rick Nelson, a sophomore unofficially broke the school sophomore pole vault record with a vault of 10' 6". The old record was set in 1960 by Bob Weber at 10' 5".

The Unexpected
...here Friday!

New Ford Mustang—\$2368* f.o.b. Detroit
(and we're not fooling!)

This is the car you never expected from Detroit. Mustang is so distinctively beautiful, it has received the Tiffany Award for Excellence in American Design, the first auto.

\$2368* f.o.b. Detroit is the suggested retail price for a completely equipped standard Mustang Hardtop (above). This price includes luxury features either not available or available only at extra cost in most other makes of cars.

*Suggested retail price. Destination charges from Detroit, options, state and local taxes, and fees, if any, are extra. White sidewall tires are \$33.90 extra.

We're still selling '68 Mustangs for about the same price.* Our way of helping to fight inflation.

Today your dollar buys even more. Every Mustang built since 1964 has been an improvement on the breed. Starting with completely new styling, much has been added. New safety features—side marker lights, self-locking seat backs and more. Fully synchronized 3-speed manual shift. Reversible keys and "keyless" locking. New body trim. A 5-pod instrument panel. New options, too.

*Based on a representative sampling of actual current sales of Chicago area Ford Dealers.

See the light. The switch is on...to Ford!

THE MUSTANGS - 1st place winners in Salem Consolidated School's 1st Intramural Basketball Season. From left to right: Glenn Bovee, Jerry Simonsen, Dave Antes, Melvin Klemp, and Guy Bovee. Back row: Ken Plants, Don Chaput, Jim Gussarson (absent) Carl Chaput.

Mustangs Win Intramural At Salem Grade School

The results of the first intramural basketball season for 6th, 7th, and 8th grade boys at Salem Consolidated are completed. A total of eighty-five boys participated in this intramural activity.

In a race to the end, the Mustangs completed the schedule with a 6-1 mark. The Mustangs' attack was paced by Captain Dave Antes, Don Chaput and Ken Plants.

In second place, one game behind the front running Mustangs, were the Wolverines with a 5-2. The Wolverines lead the league most of the season, but an injury to their leading scorer, Dale McAlister, hurt their chances of

finishing the season in the top spot. Also heading the Wolverines were Don McAlister and Gary Mow.

Third place found three teams, Hawkeyes, Roadrunners and Buckeyes deadlocked with 4-3 marks. The Hawkeyes were lead by Capt. Buddy Biller, Roger House and Bert Burns, while the Roadrunners were paced by Capt. Willie Miller, Larry Neau, and Tom Kulig. The Buckeyes were spear-headed by Capt. Mark Vlahakis, Larry Erdman and George Lebango. Sixth place found two teams, Trojans and Pointers, tied with a 2-5 record.

The Trojans started out like the team to beat, but lost their last five games. The Trojans' attack was lead by Captain Jim Hartnell, Rich Hansen and Joel LaMeer. While the Pointers were paced by Neil Hall, Kevin DeBruin, Alan Glover and Tad Barnett.

In the cellar with a 1-6 mark were the Spartans. The Spartans played good ball throughout the schedule but were able to garner only a single victory. The Spartans were lead by Roger Smith, Dean Mesmer and Les Zirbel.

Did you ever notice that a young fellow who has a lot of girls running after him always carries the plainest looking one of the bunch?

we care

why should we guarantee other people's products?

If we didn't, we couldn't honestly say WE CARE. Could we?

You see, before any product is allowed on our shelves, we've checked it out pretty carefully.

We've checked the company that makes it.

We've checked to be sure the product is all the package says it is.

If you ever buy anything at A&P you're not happy with,

you don't have to bother to write a letter to the company that made it. Just tell your A&P store manager. He'll give you your money back.

We'll get in touch with that company for you...and for us.

That's A&P's guarantee.

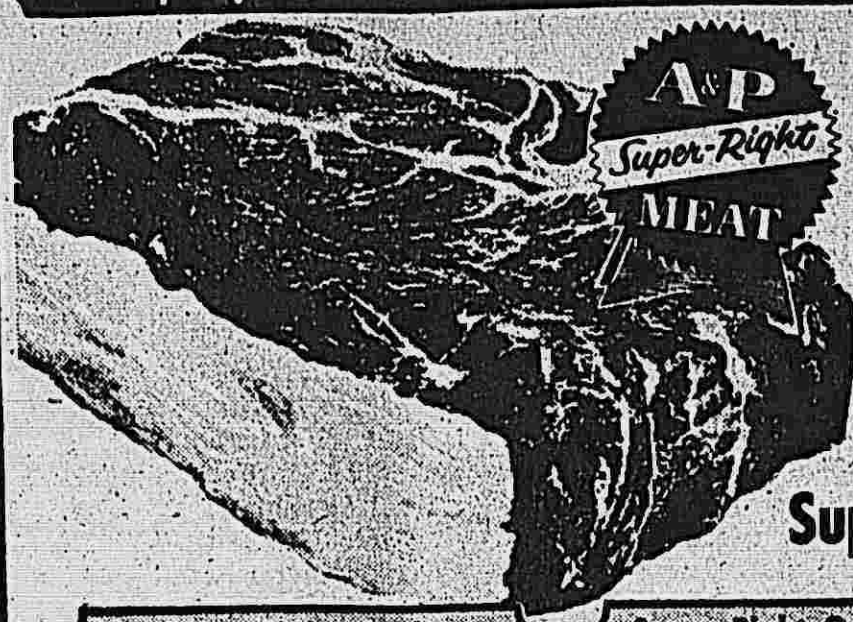

No matter who makes it, if A&P sells it, A&P guarantees it.

Not every store can offer you a guarantee like that.

A&P can...and does. Shouldn't A&P be your store?
